

Dynamic Learning Modules

Build SELF LEADERSHIP skills for success!

Students will learn how to:

- Overcome obstacles and take responsibility for themselves
- Communicate better with parents, teachers, and peers
- Ask for specific help before it's too late
- Work through different learning stages instead of giving up
- Utilize and develop their natural power for the benefit of all
- Seek opportunities that motivate them
- Set specific goals that provide direction and hold them accountable
- Use a systematic way to solve problems
- Negotiate appropriately for more freedom

Leadership

Students learn a leadership model through interactive activities to develop their self-awareness.

Take Responsibility

Students learn to take control, take the lead, and take ownership for their personal and academic lives.

No More Excuses

Students learn the importance of clarifying their values and priorities in order to make appropriate choices.

“ We're all leaders of our life, but to be an effective leader of others, you have to start with being able to lead yourself.

—Ken Blanchard

This **LEADERSHIP PROGRAM** gives students the skills they need to lead themselves in *school*, at *home*, and at *work*.

Benefits for Teachers and Trainers

Teachers and trainers become certified to deliver the lessons to students. We include online lessons and direct teacher support.

Teachers and trainers learn to:

- › Use engaging activities to ensure active participation
- › Teach life skills in a fun but purposeful way
- › Find out what motivates each student in the classroom
- › Build a sense of community through team-building activities
- › Find more enjoyment from work when students take responsibility for completing their work
- › Count on students to ask more specific questions when they need help
- › Use these leadership skills in their own personal or professional life

Results

Students with self-leadership skills are more prepared for college and/or a career.

- › Accelerated learning
- › Higher test scores and grades
- › Safer school climate
- › Enhanced confidence
- › Improved relationships with teachers, peers, and family
- › A more collaborative and cooperative classroom
- › Supportive and appreciative parents

“ I think this class has prepared me for life. I feel more confident to take charge of my own life, instead of hoping that someone else will know what I want.
—Cara (14-year-old student)
